SKILLS

- Python:
- Machine Learning and Data Mining:
- Natural Language Processing:
- Data Analysis and Visualization:
- Problem Solving and Critical Thinking:
- Data Processing:
- QA:
- QA Automation:

CERTIFICATION

- Data Analysis Certification, Lahore University of Management Sciences (LUMS)**
Jan 2022 — Dec 2022,
- Cross Platforms Using Flutter, Punjab Skill Development Initiative (PSDI)**
Jan 2025 — Dec 2025,
- Ethical Hacking and Cyber Security, Punjab Skill Development Initiative (PSDI)**
Jan 2025 — Dec 2025,

AI/ML Engineer

PROFESSIONAL SUMMARY

My objective is to secure a challenging position where I can effectively contribute my skills in the field of Artificial Intelligence. In addition, the scope for personal growth in terms of acquiring new skills and handling challenging tasks honestly, are also critical in my choice of career. AI/ML Engineer specializing in Python-driven machine learning, natural language processing, and data analysis to extract actionable insights. Proven expertise in data mining, visualization, and QA automation to enhance model accuracy and system reliability. Focused on leveraging advanced technologies to drive innovation and optimize intelligent solutions for complex challenges.

INTERNSHIPS

Constelle Business Solutions

QA Engineer

Constelle Business Solutions, 4 Service Rd E, NPF E NPF

E 11/4 E-11, Islamabad, 44000

Jul 2025 — Sep 2025

- Executed detailed test cases to identify software defects, ensuring product reliability and reducing post-release issues.

- Developed and maintained automated testing scripts to accelerate release cycles and improve overall test coverage.
- Collaborated with development teams to clarify requirements and resolve defects, enhancing product quality and customer satisfaction.
- Designed test plans aligned with project objectives to ensure compliance with functional and performance standards.
- Analyzed test results to detect trends and inform continuous improvement strategies, optimizing testing efficiency and accuracy.

DEVVERSE Private Limited

AI/ML Engineer

Office#23, 2nd Floor, Zaashan Plaza, G8-Markaz

Islamabad

Dec 2024 — May 2025

- Developed and deployed machine learning models that improved prediction accuracy, enhancing overall system reliability and user satisfaction.

- Optimized data preprocessing pipelines to increase throughput and reduce latency, ensuring timely availability of clean data for training.
- Collaborated with cross-functional teams to integrate AI solutions into production environments, improving end-user engagement and operational efficiency.
- Monitored model performance in real-time to detect drift and maintain compliance with safety and regulatory standards.
- Researched and evaluated novel algorithms to advance model capabilities, contributing to the competitiveness of AI-driven products.

CURRENT DEGREE PROGRAM

Sep 2021 - Jan 2026

BSAI, NUML (Main Campus)

LANGUAGES

English

B2 - Upper intermediate

Urdu

C2 - Proficiency
